PROJECT

CodeCollab – Real-Time Collaborative Code Editor

- **Technologies: React, Node.js, WebSockets, Yjs (CRDTs), Monaco Editor**
- **Developed a multi-user collaborative code editor using Yjs CRDTs to support concurrent editing and minimize merge conflicts.**
- **Integrated Monaco Editor with live syntax highlighting and customizable themes.**
- **Implemented code execution using Node.js child processes with real-time terminal output streaming.**

Offline Digital Payment System – Secure Digital Platform

- **Technologies: Java, React, Node.js/Express, MySQL, Cryptography**
- **Designed an offline digital payment system enabling peer-to-peer balance transfers without an active internet connection.**
- **Implemented digital signatures and unique nonces to prevent double-spending and transaction tampering.**
- **Developed a transaction reconciliation and synchronization mechanism to sync offline transactions with a central MySQL database when network connectivity is restored.**

CERTIFICATIONS AND ACHIEVEMENTS

- **Microsoft Azure Fundamentals Certification**
- **NPTEL Certification in Programming in Java**

- **Solved 1,000+ programming and DSA problems on CodeChef**
- **Participated in 100 competitive programming contests on CodeChef**
